The 21st Century Cures Act – Goals of the Legislation

GOALS OF THE LEGISLATION

RESEARCH

Remove barriers to research collaboration

Invest in STEM education

Provide new incentives for the development of rare disease drugs

GETTING TREATMENTS TO PATIENTS MORE QUICKLY

Foster coordination to find cures more quickly

Modernize clinical trials to increase access to drugs and treatments

Incorporate patient feedback in drug development and review process

KEEPING JOBS HERE AT HOME

Ensure U.S. remains a global leader in medical innovation, protecting and creating jobs at home

Encourage development of new medical apps to save lives and create jobs
