

National Institutes of Health  
Office of Research on Women's Health

**Cheryl L. Woods Giscombé, Ph.D., RN (she/her)**

**Associate Dean, PhD Division & Program and Levine Family  
Distinguished Scholar in Quality of Life, Health Promotion, and  
Wellness at the University of North Carolina School of Nursing**

Dr. Giscombé's program of research focuses on understanding and reducing stress-related health disparities among African Americans. Her research incorporates sociohistorical and biopsychosocial perspectives to investigate how stress and coping strategies contribute to stress-related psychological and physical health outcomes. Dr. Giscombé has a particular interest in the potential for integrative approaches to reducing mental health-related disparities among African Americans.

Dr. Giscombé is dually trained in nursing and psychology. She completed a B.A. in psychology at North Carolina Central University and has a B.S.N. from Stony Brook University. She earned M.A. and Ph.D. degrees in social and health psychology from Stony Brook University and an M.S.N. from the psychiatric-mental health nurse practitioner/clinical nurse specialist program at the University of North Carolina at Chapel Hill.

Dr. Giscombé's community-engaged health equity projects are funded by the National Institute on Minority Health and Health Disparities and the Health Resources and Services Administration, among others.
